

TAXPAYERS TO  
BE HEARD ON  
CITY BUDGETMANY EXPECTED TO AT-  
TEND COUNCIL MEET-  
ING TONIGHT

Tonight is the big night for the city council and tax payers of the city. Tonight is the night the council fixes the tax rate by adopting the 1947 budget in a special meeting to be held at the city council chambers. All indications today pointed to a big meeting, due to opposition to the proposed high rate which the council fixed in its original budget, but that rate will not stand long, as the council has gone over it several times and it has been pruned considerably.

It was understood today that a group of tax payers have employed Gillen and Lyon to represent them before tonight's council meeting and some interesting figures are expected to be produced before the meeting is adjourned and the 1947 budget is fixed.

Local Artist  
Wins 1st Prize

Wayne Terry, well-known Greencastle young man and artist, has distinguished himself again by winning first prize in the senior student division on a study in oil of figure or head at the State Fair Fine Arts exhibit at Indianapolis.

Wayne is the son of Mr. and Mrs. Lester Terry, living on R. 2. He attended Greencastle High School and graduated in 1943 in the upper one-third of his class. In 1942, he won first prize in the annual State Art Contest and was one of the outstanding art students of the local high school.

He also won second prize in the water color division of the exhibit.

Plan Inquest  
In Man's Death

ALTON, Ill., Aug. 26.—(UP)—An inquest will be held Wednesday into the death of Emil Jayne, Centralia, Ill., who died at the Alton State Hospital of injuries suffered in what authorities termed "a fight among patients."

O. W. Wright, mayor of Centralia, sent a telegram to Gov. Dwight M. Green demanding "an immediate and thorough investigation of this inexcusable occurrence."

Wright quoted doctors as saying the Jayne, an employee of the Centralia Water Department, had been beaten to death with a club. Jayne was admitted to the hospital last Tuesday for mental treatment under court order.

Dr. Alfred Bay, head of the institution, said Jayne quarreled with a patient on the day he arrived at the hospital. He was put to bed with sedatives and when awakened Wednesday morning the fight was renewed. A general fight among the patients of the ward followed, Dr. Bay said.

## UP FOR INTOXICATION

Rollie Coffman of Madison township, was taken in custody Saturday night by city police on a charge of public intoxication. He will appear in city court tonight.

20 Years Ago  
IN GREENCASTLE

The proposed city tax levy for the coming year was set at 85 cents in the budget prepared by the council. This was an increase of 7 cents over the existing rate. Miss Elizabeth Hughes, daughter of Curtis K. Hughes, became the bride of J. F. Willis, of Brewster, Fla., in a home wedding. Andrew Pittman was elected president of the Colored Baptist Church Association. Arnold Tilden was a visitor in Indianapolis.

Miss Elizabeth Ward was taking her vacation from the post office.

GIRL, 16 ADMITS  
EMBEZZLING \$13,000

CHICAGO, Aug. 26.—(UP)—A 16-year-old girl admitted today, police announced, that she embezzled \$13,000 from a wholesale grocery firm during 26 days the company employed her as a cashier—an average of \$500 a day.

The girl, attractive and red-haired, told Detective Arthur Tighe that she obtained the money by deducting amounts from all cash receipts she received at the State Wholesale Grocery Company.

She had given about \$10,000 to her boy friend, whom she met four months ago and had planned to marry. The remainder, she said she used to buy clothes for herself.

Police picked up the boy friend, a 17-year-old former Merchant Marine sailor. He did not admit receiving the \$10,000 from the girl but admitted that he had bought a new automobile since the girl went to work for the firm last month.

Jacob Pampliot, owner of the company confirmed the girl's estimate that she had taken \$13,000.

Police charged her with larceny and took her to the juvenile detention home until their investigation is completed. They held her boy friend pending further investigation.

Mercury Hit 45  
Degrees Monday

Putnam county experienced a "cold" wave over the week-end and Monday morning the mercury in The Daily Banner thermometer registered a low of 45 degrees.

This is only some eight or ten degrees above the frost line and many farmers have begun to worry about their late corn crop, because any kind of a frost would destroy a lot of it.

These cool nights are preventing much late corn from growing and filling out as had been expected and unless the mercury rises rapidly, this late corn will all be reduced materially so far as yield is concerned and some may not even make roasting ears.

Townsend Here  
On September 18

INDIANAPOLIS, Ind., Aug. 26.—(INS)—Ex-Governor M. Clifford Townsend has scheduled an extensive speaking tour with appearances in nearly every county of the state in his campaign for election to the U. S. Senate on the Democratic ticket.

He opens his campaign September 14 with an address at French Lick, before members of the Indiana Democratic Editorial Association. The first of two state tours is to begin Sept. 16 with an afternoon speech at Saem and a night appearance at Seymour.

The remainder of the first week's speaking schedule includes:

Sept. 17—Franklin, 2 p. m. and Bloomington, 8 p. m.; Sept. 18—Martinsville, 10 a. m., Danville 3 p. m., and Greencastle, 8 p. m.; Sept. 20—Brazil, 2 p. m. and Vincennes, 8 p. m.; Sept. 21—Washington, 2 p. m. and Mt. Vernon, 8 p. m. and Sept. 22—Evansville, Eighth district meeting.

Win Premiums  
At Vigo Fair

In reporting the results of the Jersey class at the Vigo County Fair in Terre Haute last week, we were not informed of two more prize winners from Putnam county.

Noel Nicholson of Russellville entered a bull which was awarded junior championship and which was also made grand champion. Mr. Nicholson won several other prizes with his excellent Jersey entries.

John Ames of Fillmore, in addition to other awards, entered a female which was awarded Junior champion female and also made reserve champion.

10 CIVIL WAR  
VETS ATTEND  
ENCAMPMENT"BOYS IN BLUE" HOLD  
PROBABLY LAST  
GAR SESSION

INDIANAPOLIS, Aug. 26.—(UP)—Ten old soldiers, a handful of the thousands who once marched as the "Boys in Blue," attended business sessions today at the 80th—and perhaps, last—encampment of the Grand Army of the Republic.

The two main questions facing the meeting were the election of a possible successor to Commander-in-Chief Hiram S. Gale and a decision whether to attempt to convene again next year.

The 10 feeble old men, most of them past the century mark, opened their meeting yesterday with memorial services for the 26 GAR members who died during the past year. Eighty-six members still are living, but most sent their regrets that they were unable to make the trip.

Thirteen members attended last year's encampment at Columbus, O.

Charles L. Chappell, 96, Long Beach, Calif., arrived in town yesterday morning from the west coast. Chappell traveled by plane because he said trains made him "fidgety."

Sessions so far have been dominated by some 2,000 women members of the National Women's Relief Corps, ladies of the GAR, Daughters of Union Veterans of the Civil War and the Women's Auxiliary of the Sons of Union Veterans of the Civil War, all of which are meeting in conjunction with the GAR encampment.

When observers remarked at the changed atmosphere in Indiana's capital city from last week, when the American Legion state convention was in swing, Commander Gale reminded them that "we used to cut a few capers at our conventions, too."

"The younger boys did a grand job in two wars," he said. "They're entitled to their fun." At memorial services yesterday, Gale commended the government's action in designating U. S. Highway No. 6, running across the nation from east to west, as "The Grand Army of the Republic Highway."

"We'll be gone one of these days," he said, "but our memorial will perpetuate the memory of the boys in blue." Last night, the delegates laid aside their canes and crutches to attend a concert of the United States Marine Band, which arrived here early yesterday. The band also will play for the GAR parade Wednesday.

H. E. H. Greenleaf  
Award Recipient

Dr. H. E. H. Greenleaf of the faculty of DePauw University has been awarded the Order of the Legion of Merit of the Lambda Chi Alpha fraternity, it was announced today. This is the highest order that the fraternity can bestow in recognition of outstanding achievement and but five are awarded each year to its members.

Dan Hanna of Greencastle attended the convention last week in Toronto, Canada. The convention was the first to be held since the war. Delegates attended from all sections of the United States and Canada.

YOUNGSTER HIT  
BY TAXI MONDAY

Julian Jarvis, 11-year-old son of Mr. and Mrs. Vurfin Jarvis, was injured slightly Monday morning when a Stoner taxicab hit him, as he ran from his father's milk truck. The accident occurred on south Jackson between Poplar and Walnut streets. The boy failed to see the taxi approaching from the south and George Amers, the driver, did not have time to stop until the car struck him.

Fortunately the boy received only minor cuts and bruises. City police investigated and released the taxi driver.

BEGINNERS TO  
REGISTER TUESDAY

Boys and girls in Greencastle and Greencastle Township who are to enroll in the first grade this year will report with their mothers to the various elementary buildings at 2:00 P. M. tomorrow. Principals and first grade teachers will register the beginners and distribute book lists. P. T. A. presidents of the various buildings will assist some of the activities. This pre-registration will be helpful to the school, the parents and especially the children who are going to school for the first time.

L. E. Michael  
Red X Director

Announcement has been made by Red Cross officials of the selection of L. E. Michael of east Cloverdale township as a member of the Board of Directors of the Putnam County chapter of the American Red Cross.

One other vacancy exists on the board but acceptance to this vacancy has not been received by the Red Cross office.

For many years Mr. Michael has taken an active part in the Red Cross fund campaign in Cloverdale Township and has assisted his community to report sums in excess of their portion of Putnam County's goal in these drives.

Traffic Cases  
In City Court

About fifteen traffic violators will appear in city court this evening, as a result of the city police campaign last week against "stop" sign runners at various points in Greencastle.

These "stop" signs were placed at dangerous points, but traffic has ignored most of them and to prevent a fatal accident, city police have started clamping down on those who pay no attention to the signs.

City Judge Rexell A. Boyd will hear these cases this evening.

Hopi Indians  
In Rain Dance

SHIMOPOLI, HOPI RESERVATION, Ariz., Aug. 26.—(UP)—A band of Hopi Indians, clenching whirling rattlesnakes between their teeth, danced around a camp fire last night and waited today for rain.

Hundreds of Indians from nearby villages and hardy tourists braved the desert roads to watch in respectful silence as the Hopi repeated the centuries-old ritual of their annual snake dance. Spectators were not allowed to take notes or photographs.

If rain Gods were pleased—and they should be, for this conveniently is the rainy season here—showers may bless the drought-seared mesas before nightfall.

The dance, a masterpiece of frenzied rhythm, climaxed nine days of supplication of the gods of the underground waters. During the ceremonies, barred to ordinary tribesmen as well as white men, priests of the snake and antelope clans chanted prayers deep in their underground kivas, or chambers, and gathered snakes on the desert. Only last night were visitors allowed to climb the steep mesa to witness the ceremony.

At muffled drum beat, the rainmakers, dressed in robes adorned with shells and feathers, emerged from the kivas. Four times they whirled about the plaza, stomping upon a board over a hole to signal the underground, stomping upon a board

## TO MEET AT PARK

Due to the nature of the stunts planned by some of the dens, Cub Pack No. 99 will hold its August Pack Meeting at Robe Ann Park on Tuesday, August 27th at 7 P. M.

## LEGION NOTICE

The American Legion will meet tonight at 8 o'clock at the Legion Home.

## HARPIST RETURNS HOME

Miss Reva O'Hair, harpist, has returned home after a week of visiting and sightseeing in New York City and the neighboring islands.

Being especially interested in the musical side of the New York life, she attended the operetta "Show Boat," a program in the Radio City Music Hall and also went on a tour of behind the scenes of the NBC studios.

FIGHTING IS  
ON INCREASE  
OVER CHINABITTER WARFARE REPORT-  
ED IN 10 DIFFERENT  
SECTIONS

PEIPING, Aug. 26.—(UP)—China's long-developed civil war gained in proportions and momentum today. Bitter fighting was reported between Communists and Nationalists in ten different provinces from northern Manchuria to central Shansi.

Gen. Lin Piao's Communist troops reportedly have begun encircling Tieling, 33 miles north-east of the important Manchurian rail center of Mukden. Nationalist reinforcements were being rushed from Mukden and Kaiyuan in an effort to halt the Communist drive.

(In Nanking, Communist spokesman Wang Ping-nan said a protest was being made to Gen. George C. Marshall, special American peace envoy, concerning an alleged "secret deal" between Premier T. V. Soong and Howard C. Peterson, assistant U. S. Secretary of War. The Communist New China news agency said the "deal" involved selling the central government surplus United States war materials. Wang said such a move would violate China's sovereignty and prolong the civil war. He said Marshall would be asked to transmit the protest to Washington.)

The increased tempo of hostilities was reported to military quarters in Peiping. A spokesman said "fierce fighting" was in progress in ten provinces, extending from Manchuria to Shantung and Shansi in central China. Fighting zones were reported in Jehol, Chahar, Kirin, Liaoning, Suiyuan, Kiangsu, Honan, Shantung, Shansi, and Manchuria.

The United States thus indicated it was ready to consider the matter closed if Tito carries out his promise to halt attacks on foreign planes and makes adequate amends in the form of compensation and perhaps a formal apology.

Official quarters, however, warned against conclusions that the incident already was as good as closed. Tito himself may decide to go the UN. He has accused both the United States and Britain of invading Yugoslavia's sovereignty with "thousands" of airplane flights over Yugoslav territory.

The United States position in this regard is that all American pilots are briefed carefully to avoid crossing Yugoslav territory in flights between Vienna and Italy. It maintains that any planes which strayed over Yugoslavia had been forced there by bad weather.

Despite his protests over alleged violation of Yugoslav sovereignty, Tito told U. S. Ambassador Richard C. Patterson that he was "extremely sorry" that the two planes had been shot down with loss of American lives.

MOSCOW, Aug. 26.—(INS)—Russian spokesmen charged today that the U. S. and Britain have teamed up in a game of "power politics" against the pro-Soviet governments of Yugoslavia and Poland.

Moscow repeated Yugoslavia's accusations of violations of her territory by American aircraft and denounced Britain for demanding "open and democratic elections" in Poland.

JERUSALEM, Aug. 26. (INS)—Four thousand British troops swarmed into the Palestine village of South-Yom today in a search for the source of Limpet mines used last week in the successful extremist attack on the transport Empire Rival.

The troops, units of the second British Infantry Brigade, surrounded the tiny settlement and began an inch-by-inch investigation.

Two Die In  
Plane Crash

MEMPHIS, Tenn., Aug. 26.—(UP)—An American Airlines DC-3 plane on a pilot training flight crashed near Holly Springs, Miss., last night, killing two persons, the airlines office here announced today.

The pilot and co-pilot were killed in the crash which occurred 14 miles east of Holly Springs.

James Walker, 24, Holly Springs, who was at the scene of the crash, thought he saw parts of the bodies of at least three persons, although the report from American Airlines said only two persons were aboard the plane. Their names were not available.

Wreckage was scattered 100 yards in the wooded section near a Negro church, Walker said. "There is nothing left of the plane but metal and two motors."

FILIBUSTER  
IS SEEN FOR  
NEW CONGRESSBLOC PLANNING FIGHT FOR  
FEDERAL ANTI-LYNCH  
LAW

WASHINGTON, Aug. 26.—(UP)—A bitter filibuster was shaping up for the incoming 80th congress today as a bloc of bipartisan Senators announced plans to fight for a Federal Anti-Lynch law.

Sen. James M. Mead, D., N. Y., said he and 12 colleagues would press for the measure after congress convenes in January despite sure-fire opposition from southerners and other champions of state's rights in regulation of crime.

"Recent lynchings have added emphasis to the urgent necessity for enactment of a federal anti-lynching bill," Mead said in pronouncing the "atmosphere favorable" for introducing such a measure.

Mead, however, did not predict flatly that lynch legislation would pass the senate, and other congressional sources saw ample reason for his caution. States' rights advocates led by southern Democrats are certain to greet the bill with a filibuster, a device that can be overcome only by a rarely-invoked parliamentary gag on debate.

Mead said he would be supported by Sen. Robert F. Wagner, D., N. Y., co-sponsor of an anti-lynch measure that died in committee in last congress; and Sens. Knowland, R., Calif., Langston, R., N. D., Magnuson, D., Wash., Tamm, D., Del., Mitchell, D., Wash., Taylor, D., Ida, Huffman, D., O., Gruffey, D., Pa., Thomas, D., Utah, Wash. D., Mass., and Morse, R., Ore.

FLAGSHIP RETURNS  
FROM BIKINI TESTS

ABOARD U. S. S. MT. MCKINLEY OFF THE GOLDEN GATE, Aug. 26.—(UP)—This flagship of the operation cross-roads atomic bomb tests docks today in San Francisco Bay, returning home with a few radioactive hot spots and a puppy which might well start a new breed of dog known as the "Bikinese."

More than a month after the underwater test at Bikini Atoll, Vice Adm. W. H. P. Blandy's floating hotel and office building still carries a few dangerous mementos of her memorable date with history.

It is her small boats—shortly to ply the waters of the great West Coast port—which still make a geiger counter click merrily as a result of exposure to the contaminated waters of Bikini lagoon. None of her personnel, however, has suffered in the least from his attendance at the disintegration of the atom.

A favorite passenger is "Seaman First-Class Geiger Sweet," a pup of destiny who lay in the sands of Bikini Island while the world's fifth atomic bomb exploded a few miles away.

"Geiger Sweet," so called because Geiger counter tests have pronounced him "sweet" as far as carrying radioactive particles, is the property of Lt. Comdr. S. A. Jeranko, a joint task force one intelligence officer and former all-West Virginia college football end. Jeranko, a native of Clarksburg, W. ## To have and to hold

One of the best reasons for holding your War Bonds is featured in a poster entitled, "How War Bonds Grow," published by the American Bankers Association. In it, a chart shows that after the 6th year, your bonds increase in value twice as fast as they did before. These are the harvest years for everyone who holds U. S. Savings Bonds

until maturity. One of our depositors remarked to us the other day, "I'm keeping my bonds. If I need cash, I'll see you about a personal loan." If you should need extra cash, why not get a low cost loan here and repay it out of income? Then you can be sure that you won't be tempted to let go of the best investment you ever owned.

### Peace Parley Action Lagging

PARIS, Aug. 26.—(UP)—Secretary of State James F. Byrnes plans for making an early peace with all former enemies were being rapidly discarded today as the peace conference dragged into its fifth week.

The entire peace-making schedule has been thrown out of focus by the failures and frictions of the past month. Probably the world's return to a formal peace status has been delayed many months.

Even the most optimistic delegates looked forward to a long period of diplomatic difficulties, with the high powers jockeying for a favorable position in the conference and big stakes in Germany and Japan.

The spotlight on the big-power tussle in the Balkans may switch from Paris to New York, where the United Nations security council must handle the new Ukrainian charges against Greece. Probably the entire Balkan dispute will be aired there.

Leading statesmen may decide it is more important to defend their interests in New York than remain in Paris and argue treaty details through the commission stage.

Five commission sessions were scheduled today, including two for the Italian treaty. Only shadow boxing was expected to result, in part because the French Secretariat is having grave difficulty producing copies of essential documents for detailed work.

Set for 10 a. m. meetings were the Italian political commission, military commission and Balkan-Finnish economic commission. The Italian economic and Bulgarian political commissions were

to sit at 4 p. m.

Sen. Arthur Vandenberg, R. Mich., arrived ready for "real work" as advisor to Byrnes. American delegates admitted privately he had arrived probably a week too early.

With Sept. 1 near, a discussion must be made this week whether the conference will recess for the United Nations General Assembly meeting called on New York Sept. 23. Arkadi Sobolev, assistant secretary general, will arrive in Paris early this week to discuss the UN schedule with the Big Four.

If Yugoslavia should file a formal complaint against the United States in the UN for alleged violations of aerial sovereignty, as persistently reported, the action might be the final move forcing a peace conference recess.

### DEATH CALLS AUNT OF MRS. NORTHROP

Mrs. A. C. Northrop went to St. Joseph, Mo. last week to accompany the body of her aunt, Mrs. Mary Berger, who died August 19th in a nursing home in Brazil.

Because of failing health, Mrs. Berger came to Greencastle a year ago to make her home with Mrs. Northrop. Her health failed rapidly so that she was confined to the home and knew only the immediate neighbors.

Mrs. Berger was born in Ohio but she had spent nearly all her life in Kansas and St. Joseph, Mo.

Chaplain and Mrs. A. H. Northrop accompanied Mrs. Northrop to Missouri. Rev. Northrop conducted the funeral service in St. Joseph, August 21st. Burial was beside her husband, who died 25 years ago.

### MAKE PROPOSITION

NANKING, Aug. 24. — (UP) —

Chinese Communists will stop their general mobilization if Chiang Kai-shek's troops will halt their new offensive now fanning out from Kai-feng, a Communist spokesman disclosed today.

Field dispatches said government troops under Chief of Staff Chen Cheng were smashing forward along a 100-mile front in Honan and Shantung provinces. Some 200,000 Communists were reported scurrying northward in retreat.

General Chen's sudden and powerful attack apparently was the central government's answer to the Communist "declaration of war" sounded Sunday by the Yenai and Kalgan radios.

Wang Ping-nan, the Communist spokesman, said the mobilization of 3,000,000 regulars and reserve troops was in "full swing," but emphasized that it was a "defense" move.

"This mobilization," Wang said, "is mainly for the purpose of working for peace by strengthening us so that the Kuomintang cannot crush us." He said the program would be halted immediately if Chiang's forces would drop their offensive and stop "where they are."

Nationalist press reports said General Chen's troops had captured a 30-mile section of the railway between Lanfeng and Hsinlung. The government was spreading out from Kai-feng, an important point on the rail line east of Suchow.

### SEED BALBO RYE

NOW FOR PASTURE

Larger supplies than in previous years of Balbo rye, the popular, earlier and faster growing strain of this crop will be available this fall for Indiana use. Over 800 acres of this variety have been inspected for certification, which should supply 20,000 bushels of seed, reports G. P. Walker, Purdue University extension agronomist.

Balbo has earned its popularity by furnishing grazing earlier in the fall and in the spring than ordinary strains. It is also a "sweet" rye that can be grazed by cows without objectionable odors in the milk when properly managed.

This crop when seeded in August or early September, is a valuable supplemental or emergency pasture crop for late fall and early spring and on many farms its use will save high cost barn feeding, for these months.

### FOX HUNTING DELUXE

SILVER LAKE, Wis. (UP) — Most people have to get out into the country to hunt foxes. Andrew Kowalik was sitting in the doorway of his tavern when he

saw a red fox ambling down the busiest street in town. One shot from Kowalik's gun made him eligible for a fox bounty.

### FLAGSHIP RETURNS

(Continued from Page One) 250 flag staff officers and men, ranked by Commodore J. A. Snackenberg, Chief of Staff to Adm. Blandy, who flew back to Washington from Pearl Harbor. Originally they were 475 strong, and their diminished numbers are typical of the way the Bilini atomic bomb force has been reduced. The task force in the Marshalls shortly will be cut down from a peak of 42,000 men to 1,500 with headquarters at Kwajalein Island.

The ones still there are preparing for next year's test Charley, a deep underwater explosion of atomic bomb no. 6.

### NEW TYPE SILO

Many Indiana farmers have shown interest in the trench type silo as a result of attending the recent Purdue University and Indiana Farm Management Association's farm management tour, where such a silo was seen in use on the Marton Bros. farm near Lebanon.

Principal points of construction and use of temporary silos are outlined by H. J. Barre, head of the agricultural engineering department. Good drainage should be the first consideration in the section of a building site, such as on a slope or hillside, Barre said.

The size of the trench should allow space for backing a wagon into the silo to facilitate removal of silage. Dimensions suggested are, six feet at the bottom, eight feet deep, with smooth walls sloping to ten feet wide at top. The capacity of this trench is approximately one and one fourth tons per foot of length.

A lining is not necessary when the trench silo walls are cut down smoothly. A more permanent trench may be made by plastering the walls or lining them with masonry concrete or wood. In light, sandy soils, a lining may be necessary to prevent the walls from caving in.

The secret of making good silage depends upon packing thoroughly while it is being filled. A truck, tractor, horses or cattle may be used for this purpose. Also a covering of six inches of straw may be used, over which a 12 to 18 inch layer of soil is placed. Wide strips of water proof reinforced kraft paper weighted down at the laps and edges with dirt have been used with good success for covers. Very little loss from silage has occurred.

Details of constructing the trench silo as well as the fence-paper silo and the baled-straw silo are discussed in the mimeographed leaflet "Temporary Silos," available free from the offices of county agricultural agents and Purdue University.

### IN MEMORY

In loving memory of our dear son and brother, Lt. James Hood Jr., who gave his life for his country two years ago, Aug. 25, 1944.

He set aside his future plans, His youthful hope and dream, And gave for all the Gift Supreme.

Greater love hath no man than this, That a man lay down his life for his friends,

To our hearts there comes a longing, If only James could come home. We do not know what pain he

fared. We did not see him die. We only know that he is gone, And could not tell us Good-Bye.

Sadly missed by Mom and Dad, Brother and Sisters. pd.

interrupted his vacation briefly today to work on official papers and discuss the composition of the President's civilian atomic energy board with members of his staff.

It is expected that the membership of the five-man board will be announced on Mr. Truman's return to Washington in about one week.

The chief executive sat on the fan tail of the presidential yacht Williamsburg this morning after breakfast, working on official papers.

**BELGRADE, Aug. 26—(INS)**—Yugoslav fighter planes circled Ljubljana Airport to form an airborne cortege on the final flight of the U. S. airmen killed when their transport plane was shot down Aug. 19.

The fighters—similar to those which forced two unarmed American planes to crash within a ten-day period—will escort Ambassador Richard G. Patterson's private plane to Belgrade, where the dead flyers are to be buried in a U. S. military cemetery.

"BIRTHDAYS aren't so unusual when you reach 75 and celebrate two anniversaries a year," is what Orville Wright has to say of reaching the 75 mark. The co-inventor of the airplane—its first flight on Dec. 17, 1903, being his second anniversary to celebrate annually—spent his birthday in his Dayton, O., office with business as usual. **PARIS, Aug. 26—(INS)**—The Paris peace conference commission, appointed to examine the treaty for Bulgaria, today instructed Yugoslavia to put in writing her proposal that Bulgarian representatives be allowed to state their claims for the cession of Western Thrace from Greece.

After this is done, the commission said, Greece will be permitted to reply.

Bulgaria, a defeated nation, is seeking to obtain an outlet to the Aegean Sea just north of the Dardanelles from Greece, a victorious nation. The Bulgars have Russian support.

Miss Irene Huestis, who has been spending the summer in California, has returned to her home in Greencastle.

**His Farm Fields Are Factories**

**U. S. FARMERS** have made our fields into factories:

We live better than people in other countries because our farmers get more out of the soil.

The steel industry takes pride in the way it has helped bring about this improvement in farm practice. Tools of steel—from the plowshare to the giant combine—have multiplied in number and increased vastly in quality.

Fifty years ago the typical farm in America used about 3 tons of steel. Today the figure is nearer 17½ tons.

That is a measure of the modernization of agriculture and an indication of the interdependence of steel and farming.

We no longer have separate "farm production problems" or "industrial production prob-

lems." We have but one set of problems for everybody:

If strikes, for instance, restrict the supply of farm implements and supplies through work stoppages, or make their cost prohibitive, America is out of gear.

Anything which tends in this direction is bad for the farmer—and finally for everybody. Farmers know it. Everybody else should know it.

Steel mills need all the scrap iron and steel they can get. The shortage is serious. Farmers can get extra dollars and help increase steel output by sending worn-out machinery, etc., on its way to the furnaces. AMERICAN IRON AND STEEL INSTITUTE, 350 Fifth Avenue, New York 1, N. Y.
